

# SCIENTIX

The community for science  
education in Europe

... was created to facilitate regular **dissemination** and **sharing of know-how** and **best practices** in **science education** across the **European Union**.

Scientix is open for teachers, researchers, policy makers, parents and anyone interested in science education (from dec. 2009 - website May 2010).

Scientix is managed by [European Schoolnet](#) (EUN) on behalf of the [European Commission](#) (DG Research).

## STORITEV: PREVOD BESEDILA NA ZAHTEVO

Izberi jezik besedila:

bg - cs - da - el - et - fi - ga - hu - lt - lv - mt - nl - pt - ro - sk - sl - sv

Ste v **Scientixu** odkrili kakšna zanimiva **učna gradiva**? Če niso v jeziku po vašem okusu, lahko prevod zahtevate s pomočjo 'funkcije za prevajanje po naročilu'. Usluga je **brezplačna ter je na voljo le na Scinetixovi spletni strani**.

**Kako deluje?**  
Če je učno gradivo mogoče obdelati, se na spodnji strani pojavi vrstica "Zahtevaj prevod", ki vsebuje zahtevano gradivo. (Ali je učno gradivo na voljo za prevajanje je odvisno od tega, kakšne pogoje postavljajo avtorske pravice, s katerimi je bilo gradivo poslano. Učno gradivo lahko s funkcijo, ki omogoča prevajanje po naročilu prevedemo le če njegove avtorske pravice dovoljujejo spreminjanje in povzemanje. Več o tem si lahko ogledate na: <http://creativecommons.org/licenses>)

Uporabnik/ca prevod naroči tako, da izbere želeni jezik, v katerega naj bo gradivo prevedeno. To stori tako, da na strani, ki opisuje gradivo, v vrstici "Zahtevaj prevod", klikne jezikovno kodo.

Its translation on demand feature allows for teachers to request the translation of a material they like - into Slovenian (eg. they like a Physics animation available in Czech, they request its translation and it is for free).

- Scientix – phase 1 ended November 2011
- **Scientix – phase 2** will start **January 2013**

**Scientix 2** will offer:

- **teacher training** at European level and
- **National Contact Points (NCP)** → za Slovenijo:
